

TYNDALE'S TRAINING VIDEO RESOURCES

Tyndale has created an extensive video library to help you educate and train your employees on industry standards and important safety topics for arc-rated and flame resistant (AR/FR) clothing: the importance of AR/FR clothing, how to wear and care for your AR/FR, answers to common questions, best practices, product features, choosing the right size, and more. We have put together several showcases – collections of videos – to make it easy to find what you need. **Please explore the links below, and be sure to check back often – new videos are regularly added:**

FLAME RESISTANT CLOTHING 101:

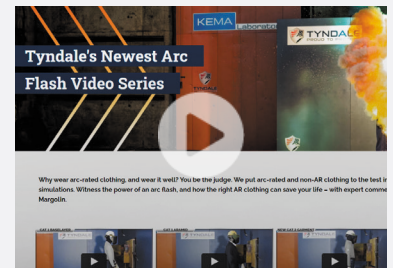

Visit <https://vimeo.com/showcase/6194412/> to view Flame Resistant Clothing 101. Tyndale VP of Technical Scott Margolin answers basic questions related to flame resistant clothing and the hazards it protects against. Scott Margolin has over 30 years of experience in AR/FR clothing, providing Tyndale with unmatched technical expertise.

ARC FLASH VIDEO LIBRARY:

Visit <https://tyndaleusa.com/fr-safety-resources/arc-flash-video-recap-2019/> to view our latest series of live arc flash testing demonstrations. These videos are great tools to demonstrate the extreme power of an arc flash, and give wearers an understanding on why proper AR/FR is imperative when working in an energized environment. Videos showcase tests on a variety of different garment types, as well as relevant arc flash FAQ videos.

FLASH FIRE VIDEO LIBRARY:

Visit <https://tyndaleusa.com/fr-safety-resources/teex-2018-video-library/> to view our latest series of full-scale real-world flash fire demonstrations. These videos are great tools to demonstrate the extreme power of a flash fire, and give wearers an understanding on why proper AR/FR is imperative when working in an environment with ignition risk. Videos showcase tests on a variety of different garment types, as well as relevant flash fire FAQ videos.
