Tyndale F290T	Relaxed	+1/2	Tapered	Sits At Waist

Tyndale Mens Pants:

The waist fits “true to size” across the natural waistline. Due to the nature of flame resistant fabrics, these pants will shrink approximately 1” in length during the first 25 washings, and will shrink a total of 2” in length during the first 50 washings. Please order your pants with sufficient length to account for this progressive shrinkage.

Vanity Sizing:

Vanity sizing, also known as size inflation, refers to the retail practice of increasing the cut of products so that consumers fit into clothing that is a size - or two - lower than they would typically wear. Tyndale’s products are cut true to size, with the products designed to fit consistent with a person’s actual measurements.

TIPS ON MEASURING

Measure around natural waist with a loose tape.

Without shoes; measure on inside of leg, from crotch to the floor.
